GAREY'S TRIAL TO-MCRROW

He Defends What has Seemed a Hopoless Case

One of the most interesting cases in the United States District Court, will be the trial of Dan H. Garey indicted for ro bing the mail, which begins to-day. As will be remembered, Garey was a postal clerk on the run between Kearney and Sidn y. An Old Kentucky Land Patent 84'0. Comes to Light,

Which, it is Said. May Make Stanton, Nicely "Fixed."

Everybody knows "Uncle John" Stanton, or has beard of him. The old man has so long been an institution of Omaha. and a peculiar character in his way, that his name is limest a familiar as is that of the city in which he lives. "Unc e John" was missing for a day or two during the summer and, by a strange coin i lence, a hat, walking-stick and kn fe corresponding to such articles he w a known to have, were found by the siver bank. The im- serday, mediate conclusion was that Uncle John, in a moment of mental uncertainty, had concluded to walk off into eternity through the rouddy waves of a issouri. The papers published rather extended notices of what vas supposed to be the melancholy demise of the old man, and there was general feeling of r gret among those who had best known him. Hardly had the ink time to dry on the printed pages, h wever, before Uncle John showed up in ve itable flesh and blood and vigorously prot sted against being treated to his obituary before he deserved it. The nethen its subject has een I ving the same

Ab ut three months ago Starton got hold of an att rnev in this city and among other things told of this rather doubtfu he i age. In a hantering way the attorney told John that if he could precure any papers to substantiste his claim or givany date in the matter he would look it forgotton by the lawyer, who never expected to see anything corrobornive of the stry. About a mon histerwards Stanton met him again and this time handed over by able to pay the fee and get the requisite an old lett r he had hunt-d up which gave the attorney the address of the old man's sister, and also referred to the property in question. It beyon to look as if Uncle John had some reason for his claim. A letter was, accordingly, after some de-

this property, supposing it would go to my sisters. Also t five years after I I fi Lexington, the lessees of the lan heard of a John Stanton being ki led in the Mexican war and thought I was the fellow. About the same time one of my sisters did, and the other one had moved away east. So the lessees had an administrator appointed: the lessees had an administrator appointed; and proceed of to confirm their titles which they have since told on to. Of late years I ve thought much about this property, but I didn't have any money to do near thing toward putting forward my rights. Now, I think my sis er and I'll get something out of it, if it's handled right. The land's there, the r liros is running through it without ever having secured right of way and I m now communing an action to ree what the parties claiming to own the land will do in the way of a comaction to rec what the parties claiming to own the land will do in the way of a compromise. My sister is older than I am and I'm 64, so she can't do much toward helping get what belongs to us. But she holds the patent papers and they're as goods when they were first signed and scaled."
